**10th January 7.30pm**  
**Tuesday Committee Meeting**  
**with Ralf Jorg**

### 2011 COMPETITIONS & FUNCTIONS

<b>December 2011</b>	Christmas Party "Fancy Dress"
<b>January 2012</b>	Show and Tell
<b>February 2012</b>	One Minute Competition and Club Auction

# *From the Presidents Desk*

## **STOP PRESS**

The library is not going to be at our meetings from now on.

All contents of the library, books and visual/sound aids will now be stored at Laurie Chesterfields home.

Members wanting anything from our library, will have to document what they want in the new library loan book. Your request will be brought to the next meeting.

## **JANUARY MEETING**

This meeting is about your inventions, ideas and special effects the you use, and wish to share with other moviemakers. Come along with your enthusiasm and a great night will assured.

## **NOVEMBER MEETING**

We showed three of the movies from last month's "Festival".

Geoff Peel then presented a power point about how the group shoot their movie "A Tasty Plot" for the 48 hour shoot out.

Other members that were involved participated, working out a script, locations, getting actors and also as to how the rain and wind affected the shoot. They worked tirelessly for most of the 48 hours, with the entry going in with only minutes to spare. The members present enjoyed the presentation, with lots of questions asked and answers replied honestly. Thanks.

## **THIS MEETING**

Our Christmas party, a time to catch up with other members, relax, and enjoy this special time of the year.

## **FEBRUARY MEETING**

Our one minute competition, open to all members, with the best ones to be taken to FAMM convention in March

## **THANKS**

My thanks goes to all members that have helped me during this past year, to run our club, it has been a busy year with several community projects completed and one still in the editing stage, with the recipients grateful of the finished product we have produced for them.

Narelle and I would like to wish all members a Merry Christmas and a safe and Prosperous New Year.

**Laurie Chesterfield**

## **DISCLAIMER**

The trophy table for the Nation Festival in October.

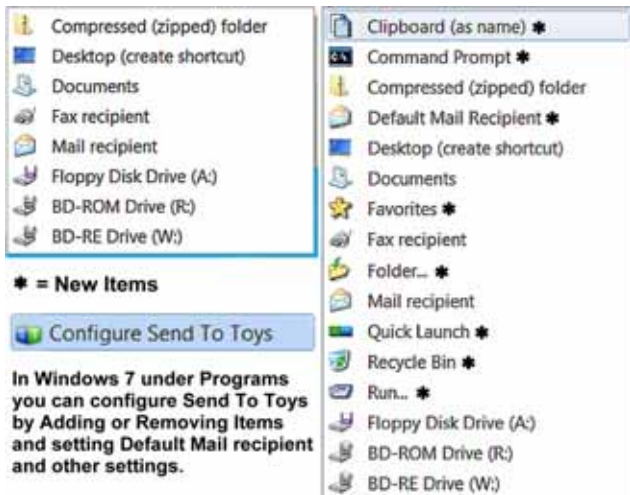

Narelle Chesterfield and guests buying up big at the festival

## Send To Toys for 32-64 Bit Windows 2000-W7 ...

**Send To Toys** is a **Windows Shell** enhancement program that adds extra functions to the **Right Mouse Click** option in **Windows Explorer**. In the image below acquired from a basic installation of **Windows 7** the (\*) asterisks show the adaptational functions available after installing **Send To Toys** with extra items appearing as they're added manually by you or automatically by some programs.

**Send To Toys** can be downloaded (1.82 MB) from:

<http://www.gabrieleponti.com/index.html>

It is **Freeware** although donations will be accepted.

## SD/microSD/SDHC Minor Refresher ...

I've written about the **SD Cards** and their varieties before and this time I wish to emphasize the **Lock** and **Unlock** function that is built into them which is a simple **Slider Switch**. Up it's **Unlocked** while **Down** it's

**Locked** and nothing can be **Written** to the **SD Card**.

The main reason for the switch is to **Protect** the **Data** that we don't want to be **over-written**. An **SD Card** can be thought of as a **Digital HDD** or **SSD** that is very small, very portable and quite a few will fit in a purse or pocket. A **MicroSD Card** does not have a **Lock/Unlock Switch** built in but it's **SD Card Adapter** has which makes it an **SD Card**.

## Fighting Viruses with an SD Card ...

If you or somebody you know has an **Infected PC** then the **SD Card** comes into its own because the **Write Protect Switch** when enabled will not allow the **Data** or the **Card** itself to become infected. **Windows 7** has **Disabled** the **Autorun** feature for **USB Memory Devices** as they can infect the **PC**.

Searching the Internet I found an **AntiVirus** program both a **CD** and **USB Freeware Versions** and they can be downloaded from:

<http://www.freedrweb.com/livecd/>

**Dr.Web@ LiveCD** - (181 MB)

**Dr.Web@ LiveUSB** - (78.9 MB)

### Dr.Web@ LiveCD

**Dr.Web LiveCD FREE**  
Download  
How It Works  
Documentation

**Dr.Web LiveUSB FREE**  
Download  
How it works  
Documentation

While at the site do not forget view the **How It Works** and **Documentation** for more detailed information on both the **CD** and **USB** versions. Extract both files from the **RAR** files, **Burn** the **.ISO** image file to a **CD** and place the **USB** file on an **SD Card** and **Lock** it.

Place the **SD Card** in an **USB Card Reader** and insert into an **USB Port** on an infected **PC** or **Laptop** and run **Dr.Web LiveUSB** to check and clean an infected **PC** for **Viruses**. Use an **Infection Free PC** for the tasks outlined above.

Besides **Dr.Web LiveUSB** there are many other **Portable Free** and **Commercial AntiVirus** software around and one such site is **Pendriveapps.com** which has a lot of portable Applications in many categories with two of interest for this article are:

**Portable Anti Spyware Malware**

**Portable Antivirus Firewall**

**Home Page:** <http://www.pendriveapps.com>

The **SD Card** used for **AntiVirus** programs can have capacities ranging from 256 MB to Giga Bytes and any Class. I would not recommend using **USB Flash** or **USB HDD Drives** because they could easily become infected and spread.

I download and try a lot **Freeware** and **Portable** software with some of them being very good.

**JPL**
